EDUCATION

The University of Chicago Chicago, IL, US
Joint Bachelor and Master of Science in Computer Science with a Specialization in Machine Learning
Bachelor of Arts in Statistics June 2021
GPA: 3.95/4.00
Awards: Student Marshal, Enrico Fermi Scholar, Phi Beta Kappa Academic Honor Society (2020), Dean's List (2017 – 2020)

EXPERIENCE

Stealth Startup San Francisco, CA, US
Product Engineer and Designer September 2025 to Present
- Building cross-platform mobile features with Flutter and integrated LLM-powered functionality
- Leading end-to-end feature design and development, from ideation to implementation

Salesforce, Inc. San Francisco, CA, US
Software Engineer on the Industries Clouds - Financial Services Cloud (FSC) August 2021 to May 2024
- Built the Financial Services Cloud for Slack App which gets installed in 50+ new Slack workspaces every month
- Delivered key FSC features like Branch Management, Association Engine, and Interest Tagging which generated 188% ROI for customers who use FSC
- Integrated FSC data model with cutting-edge AI tools like Salesforce Customer Data Platform and Salesforce Genie

Software Engineering Intern on the Industries Clouds - Health Cloud June 2020 to September 2020
- Built a feature requested by 300+ Salesforce developers for generating PDFs from Salesforce Lightning Web Components
- Created said feature with a JS frontend without third-party libraries and a Java Spring RESTful backend server on Heroku

UChicago Jason Salavon Studio Chicago, IL, US
iOS Development Intern November 2019 to March 2020
- Built DeepStyle, an app downloaded 1000+ times and rated 5 stars, that applies real-time AI style filters to videos
- Implemented a dashboard for the studio dev team to visualize collected user statistics like device types and session lengths

VIA Technologies, Inc. Shenzhen, China
Software Engineering Intern in PC and iOS App Development June 2019 to September 2019
- Built VPai Home, a PC app downloaded 10,000+ times, that live streams and processes alerts from home security cameras
- Achieved a 54% increase in downloads of VPai Home iOS by implementing a QR code scan-to-log-in feature

PROJECTS AND SKILLS

Learn to Code RPG July 2021 to April 2024
- Built a visual novel game with 20k downloads, 4.7 stars on itch.io using *Ren'Py* (game development engine)

Discord AI Chatbot June 2021 to July 2021
- Trained an AI chatbot to host on a Discord server with 1000+ users, processing 200+ user messages daily.
